# PREMIUM INDONESIAN BREADFRUIT FLOUR

NATURAL • NUTRITIOUS • EXPORT QUALITY

Our breadfruit flour is a natural product made from selected Indonesian breadfruit (*Artocarpus altilis*), processed hygienically to preserve its natural goodness. With its fine texture and neutral taste, it is an excellent ingredient for bakery, food processing, gluten-conscious product development, snacks, and various food applications. A healthy, versatile, and sustainable solution from Indonesia to the world.

## 1 PRODUCT SPECIFICATION

|              |                                                                                  |
|--------------|----------------------------------------------------------------------------------|
| Product Name | Breadfruit Flour                                                                 |
| Origin       | Indonesia                                                                        |
| Raw Material | Breadfruit ( <i>Artocarpus altilis</i> )                                         |
| Color        | White to light cream                                                             |
| Form         | Fine flour / powder                                                              |
| Moisture     | Max 12% (typical)                                                                |
| Aroma        | Mild characteristic breadfruit aroma                                             |
| Taste        | Neutral to mildly characteristic                                                 |
| Application  | Bakery, snacks, noodles, food processing, thickener, functional food ingredients |
| Packaging    | Food-grade inner bag / PE bag / kraft paper bag / export carton                  |
